**Subject:** An Indian now owns Britain's East India Company - another circle got completed

---

Sad this news did not receive as much publicity as it deserved in our country....

The East India Company which ruled India for more than 200 years is now ruled by an Indian Sanjiv Mehta who took over the company for \$150 lac. He said" at an emotional level as an Indian, when you think with your heart as I do, I had this huge feeling of redemption - this indescribable feeling of owning a company that once owned us"

But media is not interested in such great news. They were busy in useless Sania and Shoaib's marriage Lets us be the media.&..Fwd this mail to all Indians...
